

UTAH FRIENDS OF PALEONTOLOGY

From dinosaurs to trilobites, Utah is world famous for its fossils. The Utah Friends of Paleontology is dedicated to public involvement in paleontology, for the citizens of Utah. The only qualification for membership is an interest in fossils. Why rely on books and television to learn about Utah's heritage, when the Utah Friends of Paleontology offers hands-on activities? Learn about fossils and the science of paleontology through participation in local chapter activities: lectures, demonstrations, museum visits, field trips, excavations, laboratory work, and certification programs for paraprofessional training. Join the Utah Friends of Paleontology.

The Objectives of the Utah Friends of Paleontology are:

1. To promote popular interest and education in paleontology and related subjects.
2. To sponsor and encourage the formation and development of local chapter of members throughout the State of Utah, and by and through such means to preserve and protect the paleontological resources of Utah for the mutual benefit and enjoyment of all.
3. To encourage the involvement and support of local museums and educational institutions in paleontology.

Become a Friend of Paleontology!

The Utah Friends of Paleontology (UFOP) is a statewide non-profit volunteer organization dedicated to preserving Utah's fossil resources through public education and volunteer support of sponsoring institutions. Certification classes train **UFOP** members to assist paleontologists in a variety of ways. As a trained volunteer, you can participate in museum sponsored digs, specimen preparation projects, and public outreach programs.
